2. Read the following passage carefully : *10*

(1) After more than two years of halted travel, India's tourism and hospitality industry is now cautiously hopeful. Tourism constituted almost 3% of India's GDP and generated around 100 million jobs in 2019. But the sector was severely hit in India — like in other countries — in the past two years.

(2) Indians are now travelling with a vengeance — 'revenge travel', as the phenomenon is called. And many, experts say, now prefer to travel within the country instead of flying to more expensive destinations abroad. The industry is also benefitting from new trends borne of the pandemic such as micro-holidays and workcations.

(3) According to a survey, 51 percent of Indian travellers believed that international travel remained an important means of expanding their horizons and connecting with other cultures. Over two years, the survey said, Indian travellers are now dreaming about their next international trip and more than 70 percent of Indians are excited about being able to travel internationally.

(4) There has also been an increase in the number of students going abroad to study. The increasing desire to study overseas is credited to the pent-up demand from the pandemic's two-year duration. This has got further pronounced because of growing aspirations and affordability among the middle-class students from Tier II and Tier III cities.

The table below shows foreign travel by Indians for different purposes from 2019 to 2022.
